

E-LEARNING BEST PRACTICES

Coaches,

As we have entered into a season of online only communication, we have put together some best practices to help you navigate this new system of virtually training up your athletes. Below you can find how to virtually use and engage with the 2Words Character Development Curriculum with your athletes.

STEP 1

Review the video and lesson contents for the week

STEP 2

Share video through your primary means of communication with your athletes. Lessons will integrate with Google classroom and other elearning platforms. ask the athletes to watch to the video. You may also ask them to respond with a take away

STEP 3

Share the Athletes and Captains pages of the workbook.

STEP 4

Ask athletes to complete these and return them either via email or digitally.

STEP 5

Share the Family page with parents and guardians

STEP 6

Set up an opportunity for athletes and coaches to discuss what stood out to them from the lesson. This might include responding in an email, in another communication forum, or setting up a virtual discussion via zoom, google hangouts, etc.
